

Front End Software Udvikler

Har du lyst til at udvikle interaktive web løsninger?

Er du erfaren i React?

Vil du have en varierende hverdag med ansvar?

EasyPartz udvikler højteknologiske løsninger til effektiv og fleksibel fremstilling af mekaniske komponenter, herunder E-commerce or ERP software. Vi er en lille virksomhed i vækst, med fokus på at simplificere og automatisere lav-volume produktion.

Vi søger en ny kollega som vil være med til at udvikle vores online platform. Stillingen kræver erfaring med en bred vifte af teknologier inden for webudvikling, og de daglige opgaver inkluderer alt fra design af brugerflader, front-end udvikling i React, definerings af REST API'er, 3D visualisering i Three.js og opsætning af test scenarier i Celery.

Som erfaren medarbejder vil du desuden være med til at designe nye koncepter og supportere kollegaer i eksisterende produkter.

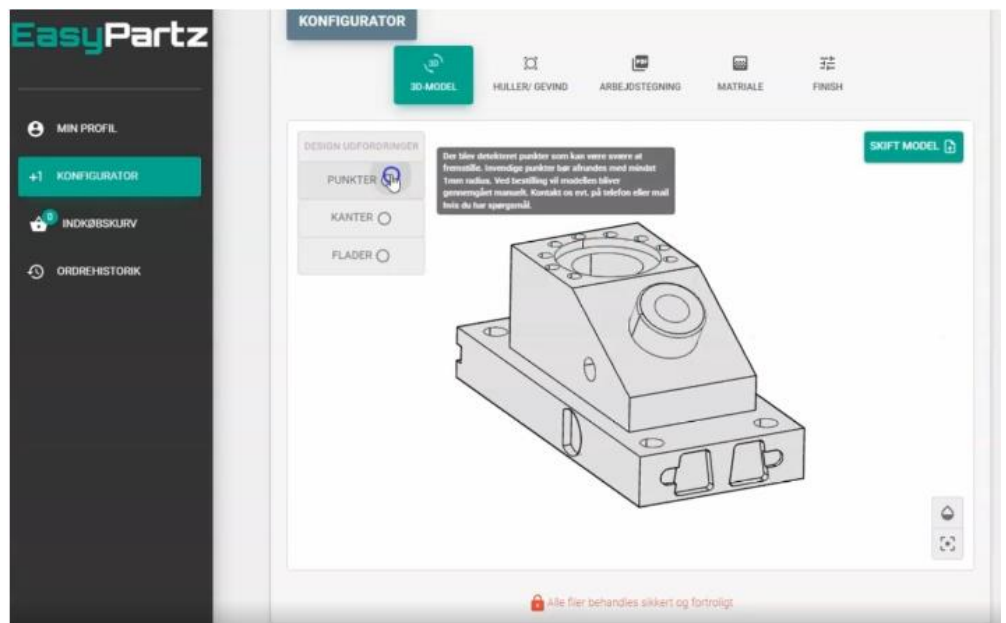

EasyPartz tilbyder attraktiv løn, kantineordning, fleksible arbejdstider, og motiverede kollegaer der løfter i flok. Vi er beliggende i Søborg lige uden for København.

Samtaler sker løbende, da stillingen besættes så snart den rigtige er fundet.

Front End Software Developer

Can you develop amazing interactive web solutions?

Are you experienced in React?

Do you want to be challenged every day?

EasyPartz develops high-tech solutions for efficient and flexible manufacturing, among this is E-commerce and ERP software. We are a small company in rapid growth, focused on simplifying and automating low-volume manufacturing.

We are looking for a new coworker who will help develop our online platform. The position requires a wide range of experience within web development, and the daily tasks include everything from designing user interfaces, front-end development in React, defining of REST APIs, 3D visualization in Three.js and configuration of test scenarios in Celery.

As an experienced employee, you will also help design new concepts and support colleagues with existing products.

EasyPartz offers an attractive salary, canteen, flexible working hours, and motivated colleagues that work as a team. We are positioned in Søborg near Copenhagen.

Interviews will be held continuously, as the position will be filled as soon as the right person is found. For more information, call or write:
